FEEL THE
LEGEND

IN HUNTER'S HANDS

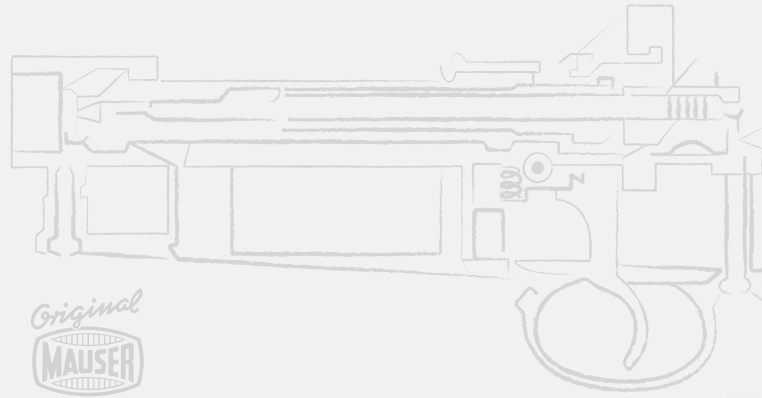

THORSTEN MANN
CEO & MASTER GUNSMITH MAUSER JAGDWAFFEN

A NEW TWIST TO AN OLD TALE

"In this technological day and age, development is advancing at an increasingly rapid pace. Who is still interested in the ingenious ideas of our forefathers? To us at Mauser, the values that were created around 140 years ago are pure inspiration. Mauser was one of the first manufacturers to combine highest-quality materials and workmanship with a brilliantly designed, absolutely fail-safe rifle system. Spurred on by enthusiastic hunters, the Mauser rifle technology has been brought to new maturity time and time again. We regard this history as a mission and share with our customers the fascination for a living legend".

SHAPING A CULTURE

1871 | Company Foundation

1898 | Action 98

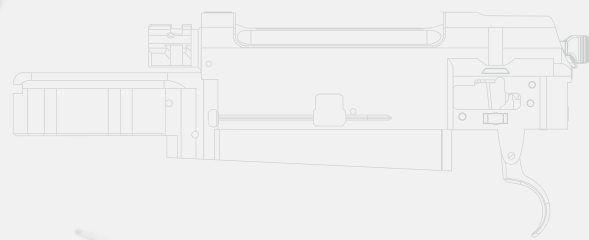

INCITED BY HUNTING

With the development of the bolt action rifle 98 towards the end of the 19th century, the Mauser brothers set a milestone in gun making history. Up until today the 98 action has formed the basis for the hugely successful models M98 and M98 Magnum. The M98 action today is manufactured according to the original drawings but with the most modern of manufacturing methods.

THE EVOLUTION OF A LEGEND

M03 AFRICA PH

Please find further information on pages 18/19.

2010 | M03 Africa PH

THE ARCHETYPE OF THE INNOVATIVE BOLT ACTION

By launching the M66 in 1966, Mauser introduces a new bolt action rifle which is thoroughly tailored to the demands of hunting. The revolutionary telescopic construction makes it approx. 6 cm shorter than the M98 action while accepting the same ammunition. Just like the M98, the M66 system lays the foundation for extremely rugged bolt action technology.

THE HISTORY OF GUN MAKING IN THE 21ST CENTURY

The introduction of the M03 in 2003 marks the dawn of a new era for the Mauser company. The M03 represents once again the successful alliance of traditional Mauser values and modern qualities such as modular construction, versatility and perfection in design. The M03 will ensure that the name Mauser maintains a leading position in rifle manufacturing far into the future.

A STRONG FUTURE BUILT, ON A STRONG HERITAGE

"Since primeval times, hunters have been motivated to constantly bring their tools to perfection. Each and every stage of development is based on existing and time-tested technology.

All over the world, the evolution of Mauser firearm technology is closely associated with the history of hunting. We remain true to our roots. Inspiration for new developments is always the result of first-hand hunting experience and stands on a solid basis of established technology."

MAUSER
M03

“The concept of the M03 perfectly represents my way of hunting: flexible and dynamic in every situation. Safe and precise in the crucial moments.”

FRANK ROMINGER, MAUSER SALES

M03 MODULAR SYSTEM

The Mauser M03 line comprises ten different models and countless variations. Each rifle can be complemented with practical accessories and upgraded with precious wood or selected engravings.

The modular system allows to individually tailor your M03 to your specific field of application. The feature explorer will help you making the right choice: www.mauser.com/m03options

Take Down Principle
The M03 can be taken down quickly and easily. It offers a small packing size for inconspicuous transport.

Stock Selection

No matter if you choose the classic version or the traditionally designed Alpine or Stutzen, every Mauser stock is available in ten wood grades starting with colored walnut heartwood and going up to unique figured curlwood. In addition, you can also choose the synthetic stocks Extreme, Trail or PH.

M 03 Left-Hand Models

All M 03 models are available with true left-hand action, reversed manual cocking system and left-hand stock. The left-hand bolt heads have an "L" alongside the markings for the caliber group. Upon special request the M 03 is also available with right-hand action in left-hand stock.

Standard barrel, short (optional)

Standard barrel

Interchangeable Barrels

By changing the barrel, calibers and barrel lengths can be varied. Fluted barrels are optionally available. In order to change barrels, simply loosen the captured barrel bushings on the fore-end.

Changing the Caliber Group

When changing from one caliber group to another, the bolt head is changed quickly and without tools.

Short Barrels

Available barrel lengths: 56, 54, 52, 50 and 47 cm (22/21/20/19/18") for Standard calibers as well as 62, 60 (23/24") and 56 cm (PH, 22") for Magnum calibers.

Custom calibers available upon request.

M03 SYSTEM

The M 03's safety and reliability as well as its versatility are achieved by a clever pairing of modern materials and technical design. The alliance of various factors such as the solid steel action and high quality-trigger in combination with the straight stock and cold hammer forged barrel result in the M 03's exceptional precision and performance.

Mauser Manual Cocking Safety System:

The M 03 is cocked manually just prior to shooting. Cocking: Move the cocking lever to the right into the "Fire" position (Fig. 1). De-cocking: Press the de-cocking button; cocking lever slides back to the "Safe" position (Fig. 2).

Bolt Lock:

In the un-cocked status the bolt is locked to prevent unintentional opening. It can be opened by pushing the cocking lever beyond the "S" position without cocking the rifle (Fig. 3).

Advanced Magazine Construction

Detachable magazine. Open Receiver enables rapid, easy loading from above even with inserted magazine (Fig. 4). High magazine capacity, lockable magazine release button - for tough hunting conditions the magazine can be reliably secured against loss.

M03 RIFLE SCOPE MOUNT

The easy to handle scope mount makes the Mauser M 03 line complete. It offers utmost repeatable accuracy and easy rifle scope change.

Action and Locking

The action is locked via 6 large locking lugs directly into the barrel (Fig. 5). Small Bolt Lift: 60°.

Mauser Trigger System

Crisp single stage trigger as standard (approx. 1,500 g / 3 1/4 lbs). Combi trigger on request (Not available in the US. Fig. 6) with adjustable set trigger (approx. 1,000 g / 2 1/8 lbs direct; set trigger pull weight approx. 100 - 300 g / 3 1/2 - 10 1/2 oz). The set trigger automatically unsets when the rifle is de-cocked or the bolt opened - a major safety advantage.

Mauser Double Square Mount

The M 03 comes prepared for the Original Mauser Double Square Mount (DSM) as standard: The DSM allows for very low scope mounting with optimum return-to-zero accuracy for all standard scopes and red dot sights. The scope is easily mounted and locked (Fig. 7).

LIVE YOUR PASSION

Mauser recommendation (optional)
 Combi Trigger
 Muzzle-Safe

"Developed for passionate hunting, designed for hard use, shaped and equipped for the eyes of the connoisseur."

M03 BASIC

As a classic, solid rifle with modern functions and qualities the M03 fulfills highest requirements in terms of safety, shooting performance, trigger characteristics and resilience. The M03's design reveals a keen sense for shape and detail: the classic walnut

stock (wood grade 2) features a black fore-end tip, thoroughly cut fish scale checkering, cheekpiece and recoil pad. Barrel, action, steel sights and smaller parts are plasma nitrided and thus highly protected against corrosion.

GO TO EXTREMES

- Mauser recommendation (optional)
- ▣ Stock color PH
 - ▣ Pistol grip cap
 - ▣ Extreme rifle sling with pockets

"If you want to exceed your own limits the M03 Extreme gives you the liberty to do so. Neither extreme climate nor rough handling can affect its state-of-the-art performance."

M03 EXTREME

The synthetic stock stands in perfect harmony with the classic appearance of the M03. In combination with the high-quality steel of action and barrel, it embodies a rifle which is able to cope with any weather conditions like extreme heat, cold or moisture.

The high-density, shatter-proof and noiseless synthetic stock features black non-slip elastomer inlays. The sling swivel can be found on the tip of the fore-end. Also a bi-pod adapter can be attached to the fore-end. The M03 Extreme is also available in the Africa, Solid and Match versions.

MORE WEIGHT, MORE STABILITY

Mauser recommendation (optional)
 □ Barrel ring „Africa“
 □ Mauser 3-Dot sights

M03 SOLID

The M03 Solid's distinctive characteristics are a thick barrel profile and full-steel open sights. It plays to its strengths on long-distance shots as well as on driven hunts which often require a good swing through a fast moving target. The adjustable M03 full-steel open sights come with a cupro nickel inlay. Available in short barrel lengths.

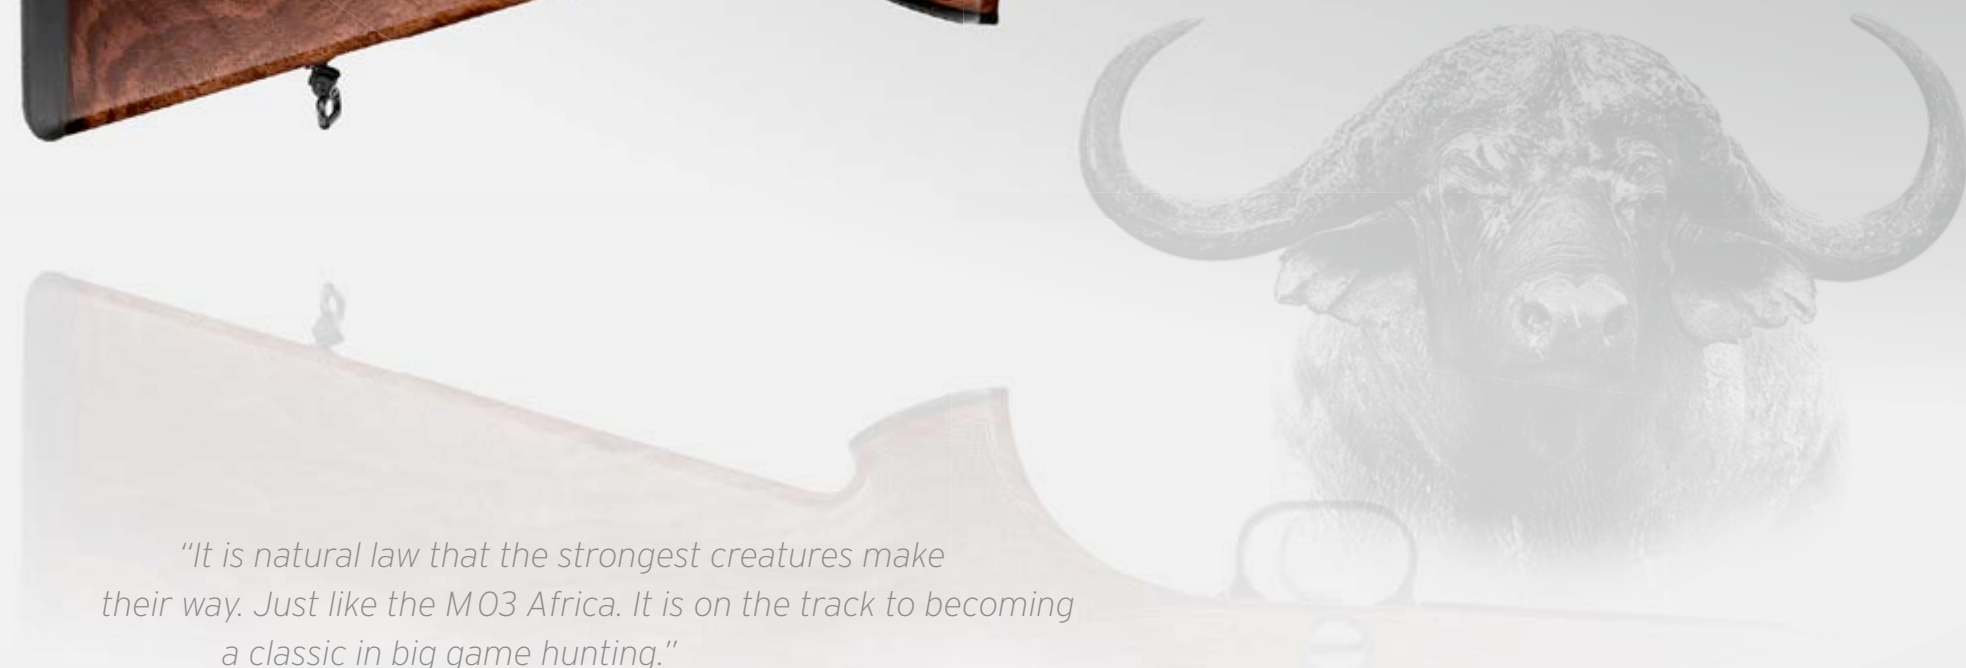

Technical Data

Muzzle diameter: 19 mm (3/4")
Overall length: 112 / 117 cm (44 / 46")
Weight: approx. 3.7 kg (8 1/8 lbs)

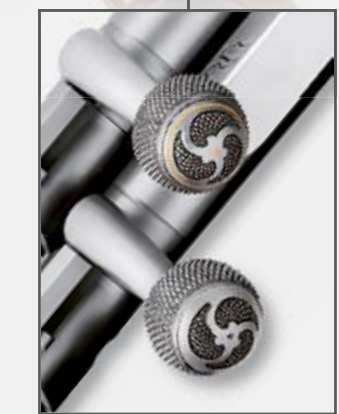

"The perfect interplay of weight and balance ensures utmost target accuracy - both on long distances and for a good swing on driven hunts."

Main fig. with special figured curlwood grade 7 and a 50 cm (19") short barrel (optional). Please find further options and exquisite details on pages 28-38.

ONLY THE BEST SUCCEED

"It is natural law that the strongest creatures make their way. Just like the M03 Africa. It is on the track to becoming a classic in big game hunting."

Mauser recommendation (optional)
 - Steel pistol grip cap
 - Engraved bolt handle

M03 AFRICA

The M 03 Africa's excellent balance ensures rapid and intuitive aiming. In order to reduce the recoil of heavy calibers, each M 03 Africa features an extra strong, long barrel and a kick-stop installed in the stock. The M 03 Africa barrel can be chosen as an interchangeable barrel.

The buck horn rear sight with cupro nickel contrast inlay can be adjusted for windage, the front sight with a 4 mm sharp-focus cupro nickel bead can be adjusted for elevation. The sling swivel and the base for the front sight are mounted on the barrel using a steel band to endure the toughest hunting conditions.

Overall length: 112/117 cm (44/46")
Weight: approx. 4.4 kg (9 3/4 lbs)

Main fig. with high-grade figured curlwood grade 8 (optional). Please find further options and exquisite details on pages 28 - 38.

ON THE SAFE SIDE

Mauser recommendation (optional)

- ▣ Mauser PH rifle sling
- ▣ Sling swivel ring PH on the barrel with 60 cm barrel length

"The hunting guide's rifle can save lives. This is why it has to be as agile, quick and reliable as the one who always keeps it by his side."

M03 AFRICA PH

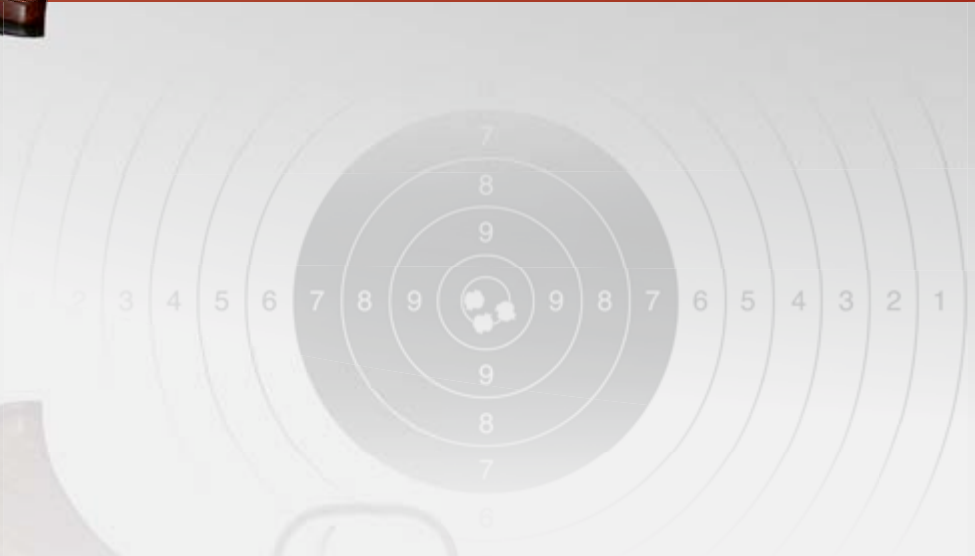

The M03 Africa PH is fitted to the needs of hunting guides. It is built for strong calibers and at the same time is extremely compact and blends in the professional hunter's equipment. Its highly stable synthetic stock with kickstop is colored in natural sand and features anti-slip black inlays. Thanks to the double detachable sling-swivels on the

buttstock and on the front of the fore-end, utmost carrying comfort is provided. Due to a compact overall length, this "pro rifle" stands the test in daily use. Chamber, trigger and bolt handle are colored in black. Muzzle Safe and Mag Safe perfectly round off the package.

Overall length: 112/108 cm (44/43")
Weight: approx. 4.3 kg (9 1/2 lbs)

Main fig. M03 Africa PH with 56 cm (22") barrel length. Please find further options and exquisite extras on pages 28–38.

ONE SHOT ONE HOLE

"As an ambitious shooter you just have one aim in mind: the accurate shot. The M03 Match turns your focused power into success."

Mauser recommendation (optional)

- ▣ Adapter for bi-pod & bi-pod for wooden or synthetic stocks
- ▣ Adjustable comb (wood or synthetic)

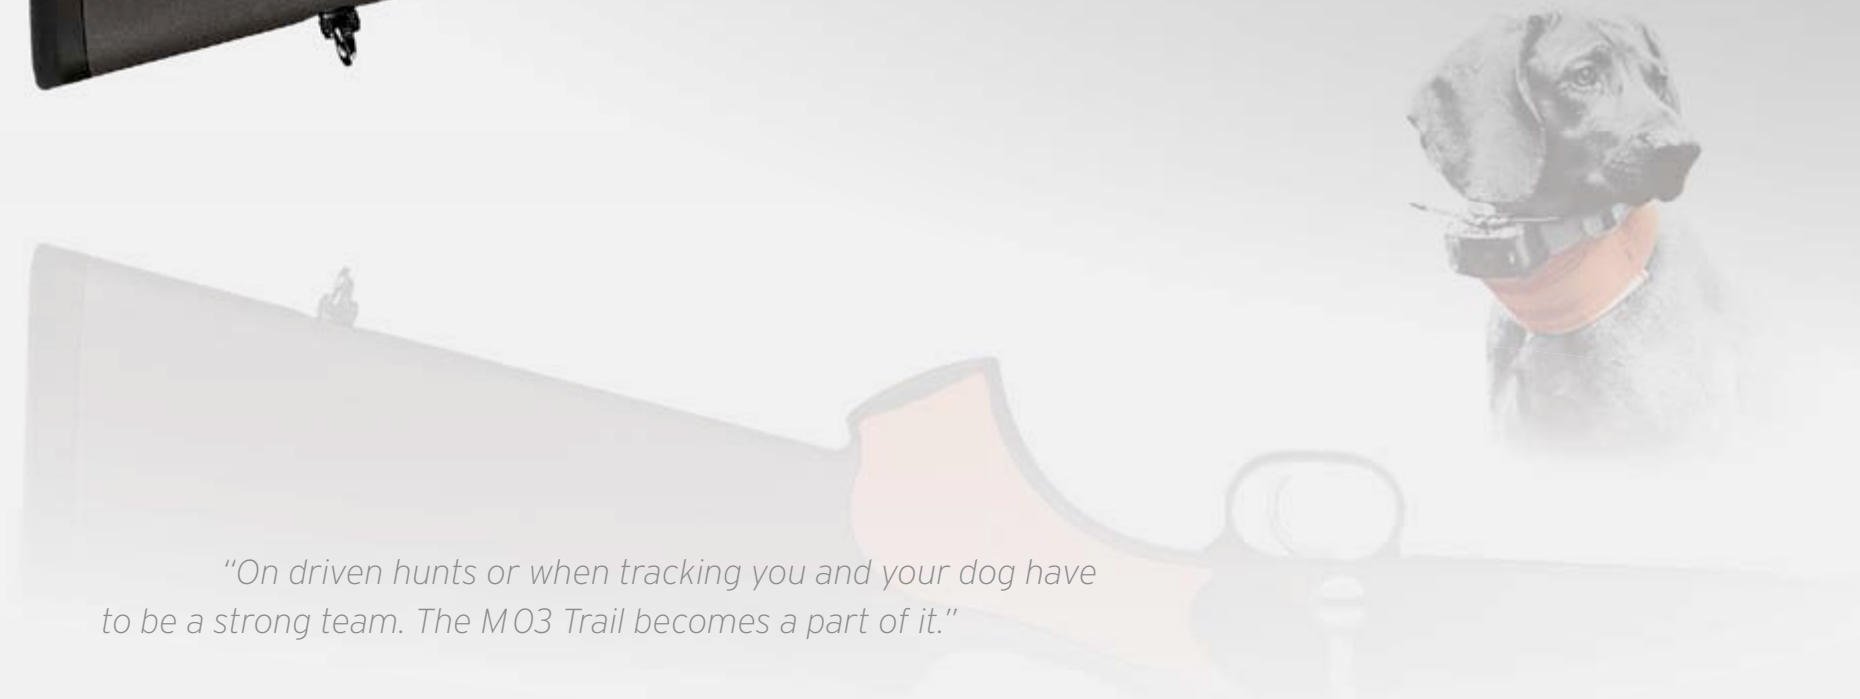

M03 MATCH

Challenging marksmen look for perfect stability when shooting static targets as well as a stable, steady swing when shooting at moving targets. The M03 Match combines outstanding balance with excellent shooting performance. On request, a fluted barrel ensures improved heat dissipation. M03 Match barrels are also available as interchangeable barrels.

Technical Data

A PERFECT TEAM

"On driven hunts or when tracking you and your dog have to be a strong team. The M03 Trail becomes a part of it."

Mauser recommendation (optional)

- ▣ Mauser fleece cap
- ▣ Mauser fleece scarf
- ▣ Trail rifle sling with pockets

M03 TRAIL

The M03 Trail offers maximum safety and flexibility on driven hunts or when tracking, where thick vegetation challenges both hunter and rifle. Your solid base: the manual cocking system of the M03 and the M03 Extreme's high-tensile synthetic stock. Thought-out solutions directly respond to the requirements of practical hunting. Muzzle-Safe protects the barrel against dirt.

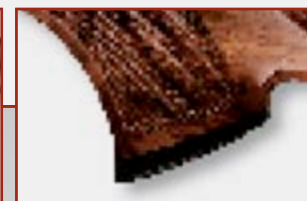

By twisting the magazine lock Mag-Safe, the magazine is secured against loss. 3-Dot sights allow for instinctive target acquisition even in adverse lighting conditions. Sling-swivels on the muzzle (360° rotating), fore-end and on two positions of the buttstock.

Technical Data
Calibers: .308 Win., .30-06, 8x57 IS, 9,3x62
Barrel length: 47 or 50 cm (18 or 19")
Overall length: 99 / 102cm (39 / 40")
Weight: approx. 3.5 kg (7 3/4 lbs)

Main fig. features a stock with signal orange elastomer inlays (optionally also available in black) and 47 cm (18") barrel length. Please find further options and exquisite extras on pages 28–38.

THE PERFECTION OF SHAPE

Mauser recommendation (optional)

- ▣ Mauser rifle sling De Luxe
- ▣ Engraved magazine floor plate with chamois motif

"A masterpiece of harmonic rifle design. Attention to detail resulting in elegant lines with a traditional touch."

M03 ALPINE

The subtle hog-back stock and double fold Bavarian cheekpiece blend perfectly with the slight pistol grip and elegant drop point fore-end. The M03 Alpine reflects the fine art of designing a rifle stock.

Special figured walnut grade 5 is selected from the Mauser warehouse. Both the sleek fore-end and the pistol grip feature an ebony finish. The extra fine cut checkering perfectly rounds off the superior elegance of the M03 Alpine.

Overall length: Mini, Standard: 112 cm (44")
Magnum: 117 cm (46")
Weight: approx. 3.5 kg (7 3/4 lbs)

TAKE A SHORT-CUT

Mauser recommendation (optional)

- ▣ Mauser knife
- ▣ Color case hardening of action, trigger guard and magazine

Features

- ▣ Main stock with double-fold Bavarian cheekpiece, slight hog-back and fine checkering
- ▣ Pistol grip cap with subtle kaisergrip in ebony
- ▣ Stutzen fore-end as separate part remaining on the barrel
- ▣ Fore-end tip as drop-point
- ▣ 2nd fore-end tip with sling-swivel for the conversion to standard stock

M03 STUTZEN

Innovation in traditional looks: As a special model for stalking and mountain hunting, the M03 Stutzen combines optimum comfort with maximum safety and shooting performance. Thanks to the split fore-end, it provides the same accuracy as any other M03 model.

The barrel is free-floating with no contact to the main stock. By changing the barrel, the Stutzen can quickly be converted into the M03 in the Alpine style in any caliber available in the M03 range. Never before has a Stutzen been this versatile.

Technical Data

Calibers / Barrel length 50 cm (19"):
 .243 Win., 6,5x57, 7x64, .308 Win., .30-06, 8x57 IS, 9,3x62
 (Custom calibers available upon request.)
Overall length: 102 cm (40")
Weight: approx. 3.7 kg (8 lbs)

"If taking shortcuts is one of your favorites, the M03 Stutzen might be your rifle of choice. It is compact, classy and extremely flexible."

M03 FEATURE EXPLORER

The M03 line offers numerous possibilities of further rifle equipment. The feature explorer will guide you when selecting your options. Also have a look at: www.mauser.com/m03options

Bolt + Trigger Black
Impressive consistency: the complete action including chamber, trigger and bolt handle are colored in black.

M03 3-Dot Sight
Outstanding contrast thanks to orange points for quick, intuitive target acquisition even in adverse lighting conditions.

Africa Sling Swivel
When the going gets tough. The sling swivel is mounted on the barrel using a stable ring.

Rotating Sling Swivel (360°) At the end of the barrel. Incl. detachable sling swivel. For maximum ease of movement when tracking.

Muzzle-Safe
Special muzzle protector with signal colored patches protecting the barrel against dirt. The patches can easily be shot away.

Individually Adjustable Comb
Adjustable in vertical and horizontal direction. Available for all wooden and synthetic stocks.

Custom Stock Lengths
as well as rubber pads are available for wooden and synthetic stocks.

2

13

1

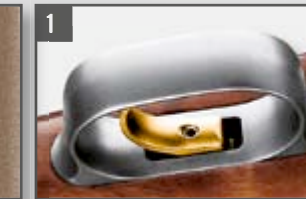

Fluted Barrel
It is lighter than the regular barrel and enhances heat diversion.

Adapter for Bi-Pod
To be attached on the fore-end. Available for wooden and synthetic stocks.

Magazine Lock "Mag-Safe"
By twisting the Mag-Safe, the magazine is secured against loss. Retrofitting possible.

Combi Trigger
Not available in the US. With adjustable set trigger (approx. 1,000 g / 2 1/8 lbs direct; set trigger pull weight approx. 100 - 300 g / 3 1/2 - 10 1/2 ozs). Titanium nitrided trigger.

Synthetic Stock
Signal colored elastomer inlays, available for all synthetic stocks. They enhance safety especially on driven hunts.

Kickstop
The stainless steel cylinder filled with tungsten beads is inserted into the stock and reduces recoil by about 20 %.

Short Barrels
Possible lengths: 56, 54, 52, 50 and 47 cm (22/21/20/19/18") for Standard calibers as well as 62, 60 (24/23") and 56 cm (PH, 22") for Magnum calibers.

Muzzle Thread
E.g. as a base for muzzle breaks. Cover included.

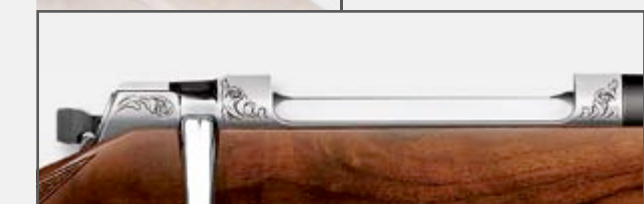

Magnaport
Four "ports" or slots close to the barrel muzzle reduce the recoil by approximately 20 %.

AT THE FEATURE EXPLORER

A TOUCH OF ELEGANCE

"Delicate engravings discreetly underline the elegance of your rifle and give it a personal touch."

M03 DE LUXE

Hand-engraved flowing leaf arabesques cover the action and trigger guard. They also frame the portrait of an animal on the magazine floor plate. You can choose the head of a wild boar, red deer, chamois, roe buck or cape buffalo. A beautifully grained walnut wood (grade 5) is selected.

M 03 De Luxe
Five different animal portraits can be chosen. Further engravings upon request.

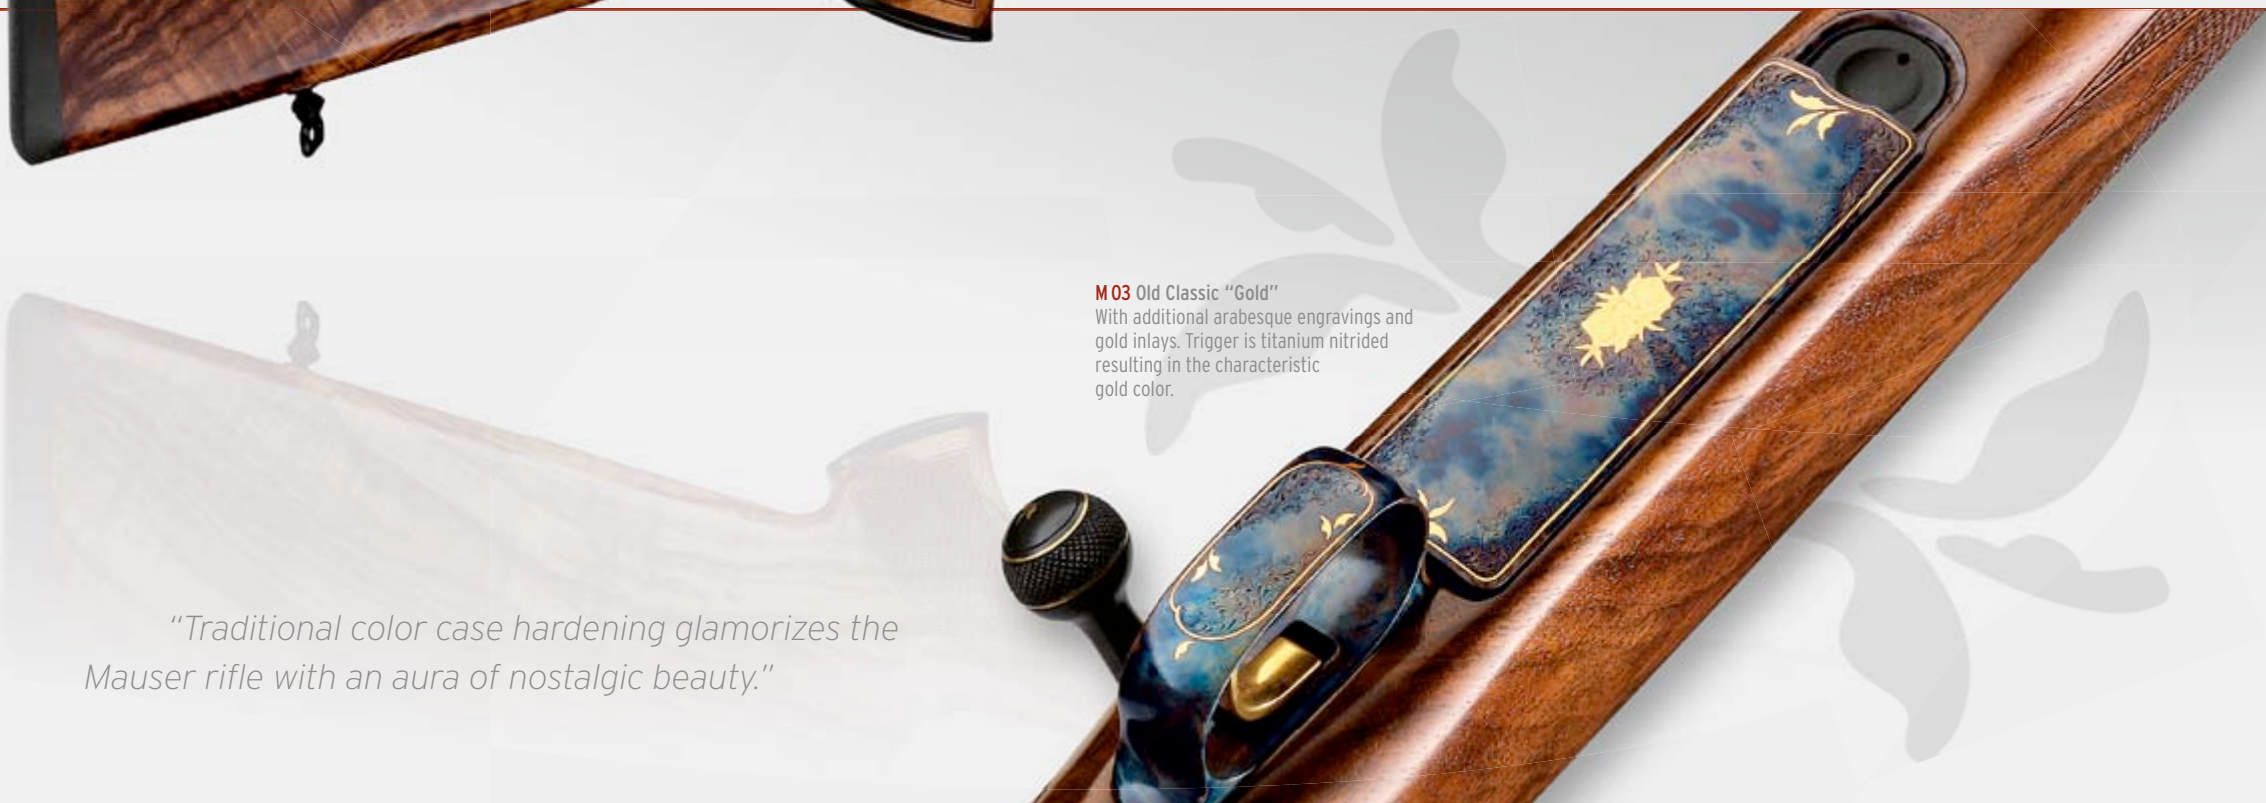

M03 ARABESQUE

Discreet engravings on the action and double square bridge emphasize the character of nitrided steel. The Mauser coat of arms, surrounded by arabesques, adorns the magazine floor plate. Grade 4 grained walnut wood is selected for the M03 Arabesque.

Main fig. M03 De Luxe with high-grade figured curlwood grade 8 and short barrel (optional). Please find further options and exquisite extras on pages 28 – 38.

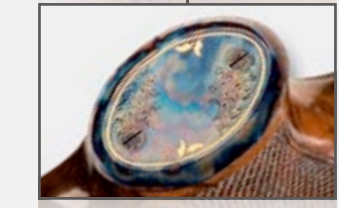

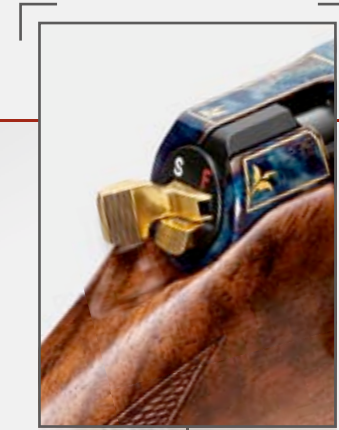

31

OLD SCHOOL RIFLE ART

M03 Old Classic "Gold"
 With additional arabesque engravings and gold inlays. Trigger is titanium nitrided resulting in the characteristic gold color.

"Traditional color case hardening glamorizes the Mauser rifle with an aura of nostalgic beauty."

Mauser recommendation (optional)
 - Cocking lever and de-cocking button gold-colored (titanium-nitrided)
 - Pistol grip cap Old Classic "Gold" with additional arabesque engraving

M03 OLD CLASSIC

The hand-made, elaborate color case hardening of action, trigger guard and magazine combined with the satin black finish of bolt and trigger results in a rifle of unrivalled beauty. The M03 Old Classic is bedded in figured curlwood (grade 6).

Upon request all M03 models can be up-graded with color case hardening. Thus the M03 Africa for instance can be turned into a true big game classic taking you back to the big game hunting society at the turn of the 19th century.

Main fig. M03 Old Classic with high-grade figured curlwood grade 8 and short barrel (optional). Please find further options and exquisite extras on pages 28 - 38.

EXQUISITE VALUES

Fine, hand-made engravings and stock carvings embody your personality and express your hunting experience. The rifle becomes a symbol for individual values epitomizing the hunter's respect and responsibility towards wildlife.

1. + 2. Pistol Grip Caps

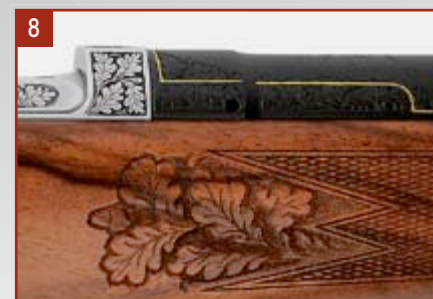

Skillfully engraved pistol grip caps with the animal of your choice or your monogram are a popular refinement in the Mauser M03 line (fig. 1). Custom engravings or pistol grip caps in steel are available upon request (fig. 2).

3. Bolt Handle Engravings

The splendid fish scale checkering engraved on the ball can also be refined with subtle gold inlays (Fig. 3). It gives the ball a magnificent look and enhances good grip.

Bolt handle designs ending in a leopard head.
(Other animal engravings possible)

4. – 7. Custom Engraved Magazine Floor Plates

Accomplished by beautiful ornaments. (fig. 4) Stag head enclosed by oak leaves (fig. 5) The most popular African big game on the M03 "Big Five" (fig. 6) Old cape buffalo on the M03 "DSC Hatari" (fig. 7) Masterpiece of gold and silver inlays on the M03 "Mystic"

8. Stock Carvings

Ornamentation in harmony with engraving. Optional fish scale checkerings can also be chosen to decorate the stock.

9. Barrel Engravings

Individual engravings and gold inlays on barrel and sights.

10. Gloss Finish

Bolt and action parts are lavishly hand-polished accentuating the engravings. Optionally available from model "Arabesque".

All engravings and gold inlays are also available separately from the engraving examples shown above. Please find further options on pages 28 / 29.

FASCINATION AFRICA

M03 "NAMIBIA"

The artist who engraved this M03 eternalized his enthralling impressions of Namibia. A lavishly performed arrangement of acanthus and African whitethorn frames the animal portraits: Oryx and kudu adorn the magazine, a leopard decorates the trigger guard and a wart hog boar is presented on the steel pistol

grip cap. Action and smaller parts are grey nitrided and feature a gloss finish. The action of this particular rifle rests in a specially chosen stock carved out of premium root wood with "tiger stripes" adding to the uniqueness of this masterpiece of traditional hand engraving.

THE LINE OF BEAUTY

M03 "SILVERLINE"

The fine silver wire inserted by hand into the deep black polished steel creates a design of charming contrast that clearly stands out and perfectly underlines the classic shape of the M03. As the lines become finer they flow into delicate ornaments entwining around the action, barrel base and sights with the

lightness of art nouveau. The manual cocking system and trigger are polished brighter than the other metal parts of the rifle. The noble root wood grade 6 perfectly rounds off the rifle's precious appearance. The M03 "Silverline" follows a design line that is consistent and playful at the same time.

M03 "BIG FIVE FRAME"

This elaborate extra fine engraving performed in photo-realistic precision is one of the finest examples of artistic design on a modern hunting rifle. The name "Frame" refers to the fine English scroll enclosing the animal portraits. Elephant, buffalo and lion are engraved on the magazine floor plate, rhino and leopard are presented on the pistol grip

cap and trigger guard. The rare, honey-colored high-grade figured curlwood grade 8 captivates with gorgeous contrasts. Finest arabesques decorate the surface of bolt and action as well as the barrel and sights. This M03 Africa embodies the incomparable experience of big game hunting.

MAUSER
M98

*"A system that has been tried and tested a million times.
I am fond of Africa and to me the Mauser 98 is the incarnation of the big game hunt in its original form."*

BJÖRN FRIEDRICH, MAUSER INTERNATIONAL SALES

THE LEGEND LIVES ON

Fig. M98 with exquisite figured curlwood grade 9, Mauser horizontal 3-position safety, short barrel and express sight with two folding leaves (optional).

MAUSER M98

"The M98 is still manufactured according to the original drawings and patents. A rifle that does not need any further explanation – the classic among bolt action rifles."

M98 / MAGNUM

Barrel lengths: 60 cm (24") (other barrel lengths available on request)
Weight: from approx. 3.6 kg (8 lbs)

M98 OPTIONS

The M 98 remains a landmark of original rifle technology to this day. This becomes even more obvious when it is enhanced with some classic details and proven components.

Like the M 98 itself, the options shown on the following pages are manufactured true to original designs with the utmost care and precision.

1. Rigby-Style Diopter Sight

the classic aid to acquire targets over long distances.

2. Preparation for Swing-off Scope Mounts

(bases in square bridge) or complete mounts for rifle scopes with or without rail.

3. Mauser Horizontal 3-Position Safety

with locking lever, also available with S and F on safety catch inlaid in gold.

4. Rigby-Style Cheekpiece

elegantly shaped and underlining the sleek stock.

5. Sling Swivel Inlaid in Buttstock

with subtle engraving upon request.

6. Integral Barrel

Barrel, quarter rib, sight bases and even the sling swivel are machined out of the solid barrel steel. Only available for M 98 Magnum.

7. Safari Folding Sight

with white enamel inlay for rapid target acquisition or adverse lighting conditions.

8. Large Rigby-Style Magazine Cover Model "Rigby III"

Increases magazine capacity to 4+1 for caliber .500 Jeffery. Only available for M 98 Magnum.

9. Custom Engravings

Available upon request, e.g. the portrait of a cape buffalo. The following pages display just a few of the unlimited possibilities.

10. Express Sight with two folding leaves zeroed for 50, 100 and 150 m. Also available with gold inlaid lettering and center line.

Further Options and selected stock woods from grade 6 to 11 are available upon request.

MADE BY MASTERS

An immortal hunting rifle system like the M98 refined with exquisite engravings is a unique treasure throughout the world. It is a symbol of traditional hunting culture and passes on the fine art of gun making to future generations.

Only the best engravers are employed to bring the rifle's steel to life. Their skill and artistic understanding harmonize with the classic appearance of the rifle.

M98 "BIG FIVE EUROPE"

The exceptional arrangement of oak leaf, ferns and thistles is spread generously across the entire action, trigger guard, bolt handle and pistol grip cap. The centrepiece of this artwork

is the magazine cover with the stunningly detailed portraits of red stag, boar, chamois, mufflon and roe buck framed by the typically European fauna.

M98 "ENGLISH CLASSIC"

The Mauser master engravers added subtle English scroll to the color case hardened action of the "English Classic", perfectly complementing this unique surface finish.

Special figured curlwood grade 7 underlines the incredible charm of this rifle. The color case hardened M98 and M98 Magnum are also available without engraving.

M98 "ELEPHANT"

Mauser once again created a true masterpiece, proving that the legend of the M98 Magnum "Elephant" is very much alive. The M98 Magnum "Elephant" is the impressive fruit of a cooperation of master engravers. Arabesque variations and African acacia thorns frame the lettering "Original Mauser" on the pistol grip cap and "Mod. Elephant" on the barrel quarter rib. The mighty animal that gives this rifle its name can be found on the

magazine floor plate. The horizon is entirely inlaid in gold giving the majestic elephant a spectacular surrounding. The whole scene truly captures the fascination of Africa. The artwork is complemented by a stock made of very rare figured curlwood grade 10 featuring a Rigby cheekpiece.

MAUSER ACCESSORIES

Exquisite extras and elegant accessories for the practical hunting experience demonstrate your devotion to the Mauser legend.

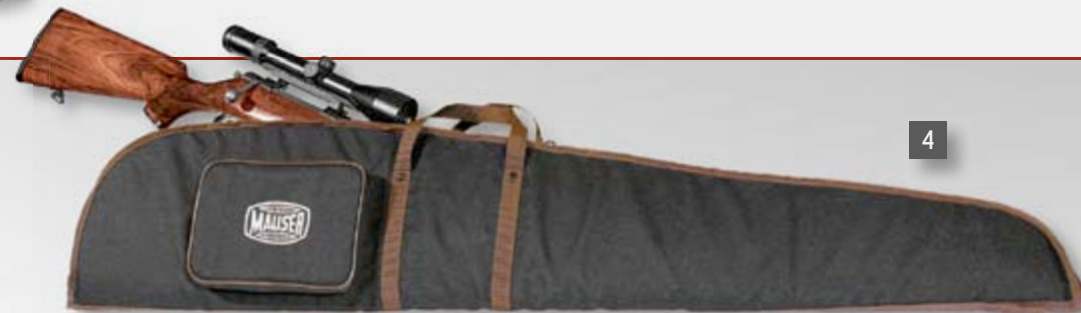

1. M03 Leather Rifle Case
This handmade rifle case provides the highest of quality standards and is customized according to your demands. Short versions are available to accommodate the M03 (Take Down), long versions accept the M98 (Magnum) with or without mounted rifle scope. All Mauser leather rifle cases feature reinforced corners and high-quality combination or key locks. The picture shows a rifle case made of dark brown leather with red lining.

It accommodates an M03 with spare barrel, two rifle scopes and accessories.

2. + 3. M03 Rifle Case Single, M03 Rifle Case Double
Tried and tested features make this gun case very popular: Rounded, reinforced corners, integrated carrying handle, luggage label bar, velcro strap for securing the stock and non-slip compartments for the barrel. Separate compartments with extra high walls

Two sizes are available:
• Single rifle case for the M03 without spare barrel and for one rifle scope (fig. 2).
Measurements: 90 x 26 x 9 cm (35 1/2 x 10 x 3 1/2")
• Double rifle case for the M03 with spare barrel and second rifle scope (fig. 3).
Measurements: 90 x 40 x 9 cm (35 1/2 x 16 x 3 1/2")

accept the action and stock, bolt, rifle scope with mount and spare magazine.

4. Soft Rifle Case
Provides optimum protection when transporting your rifle and scope. A small padlock can be attached to the zipper for enhanced security.

5. – 8. Mauser Rifle Slings
Infinitely variable. All Mauser rifle slings are made of slip-proof neoprene. The 70 mm (2 3/4") wide strap provides optimum carrying comfort. Two pockets offer storage space for cartridges and Muzzle-Safe-Patches.
Extreme: with quick-release fasteners. Color: Black (fig. 5)
Trail: Color: Signal orange (fig. 6)

Deluxe: with quick-release fasteners. Color: Brown with leather borders (fig. 7)
PH: extra robust model. Color: Black with leather borders and "PH" logo (fig. 8)

9. Mauser Cotton Cap
Classic looks in sporty style. With embroidered silver Mauser logo on the visor. 100% Cotton. Color: Brown.

10. Mauser Fleece-Cap
Safe and warming. With embroidered Mauser logo on the visor. Fleece: 100% Polyester. Color: Signal orange.

11. Mauser Scarf
Warming companion with signal effect. With embroidered Mauser logo. Fleece: 100% Polyester. Measurements: 190x35 cm (75x14"). Color: Signal orange.

12. Mauser Watch
Classic optics meet modern technology: solid steel casing, high-quality branded quartz mechanism, fluorescent hands and numbers, date display. Mauser emblem on the clock face and gift box. Waterproof up to 50 m (160 ft). 2-year manufacturer's warranty. Incl. gift box.

13. Mauser Hunting Knife Classic
Proven materials have merged to form an elegant classic in knife design. The 10.5 cm (4") Drop Point blade is made of solid stainless Sandvik 60 HRC steel. The back features a checkering for safe grip. The tang is fully embedded in a buckhorn handle and is mounted in a new silver crossguard towards

the blade. With leather sling and saddle leather sheath with embossed Mauser logo. Incl. gift box.

14. Mauser Muzzle-Safe Patches
Reliably protect the barrel against dirt and moisture. Box with 25 patches. Can only be used in M03 barrels which are specially prepared for the patches.
